TILBURY BRIDGE WALKWAY OF MEMORIES

OPENS FROM 22 JUNE 2021 WINDRUSH DAY

Exhibition Guide

Tilbury Bridge Walkway of Memories Art Installation June 2021

Tilbury Bridge Walkway of Memories is an art and sound installation conceived and created by Artist EVEWRIGHT. The first site-specific outdoor art and sound installation to be held at the Port of Tilbury in Essex and the UK dedicated to people of the Windrush Generation

The installation is an immersive visual art experience, installed on 432 panes of glass collaged with photographs, documents, original boat passenger tickets and memorabilia. The artwork is installed in an original passenger walkway 55 metres long. As you walk through, you can listen to audio stories about the lives of some of the elders whose images are featured in the installation.

Tilbury Port is an iconic location which has an historic significance to the black community in Britain. This artwork is a unique statement memorialising the lives of those people who came from the Caribbean who carried their British passports proudly as British citizens with hope and expectation. They passed through this location as one of the original walkways where SS Empire Windrush passengers, in 1948 arrived. Although many arrived before 1948, those that arrived here were the first large post war wave of British colonial citizens to disembark from the passenger ship at Tilbury Cruise Terminal.

The Contributors to Tilbury Bridge Walkway of Memories

This installation features over 130 people from the Windrush era and their families through photographs, documents and audio, telling stories in their own words of their arrival, the lives and families they created and their contribution to British society. This artwork and soundscape are symbolic and a testimony to those that arrived on SS Empire Windrush and the many that followed that journey to the UK. The names of all 130 participants are here <https://www.evewrightarts.org/tilbury-walkway> and also on the credits at the Bridge.

Tilbury Bridge Walkway of Memories Installation images

These includes:

- the children left behind with grandparents as parents leave to seek a new life
- passports & passport photographs capturing the moment of arrival to England
- wedding photographs
- marriage Certificates,
- employment documents, nursing certificates
- original passenger ship tickets from Don Sydney & Hamilton Williams
- images of participants in their employment during different stages of their lives from nurses & nursing auxiliary workers, military personnel during World War 2, post office workers, policemen, teachers and labourers.
- Images of fashion and culture with clothing and hairstyles in the 60's and 70's
- Letter from home (the Caribbean) in the 1980's
- Pathe film still images of people arriving from the Empire Windrush in 1948

Written Summaries of the Audio windows

Summaries of all 21 audio Windows are below. A more detailed summary of 12 of the 25 stories can be found on our website www.caribbeantakeawaytakeover.wordpress.com just click on the images of each elder. There is also a link under each of the 12 photographs to the 30-minute extracts.

Audio Recordings

21 sound windows with approximately 10-minute extracts on each window of 25 stories. Using your own devices visitors can scan the QR codes on selected windows and download different stories to listen on site using headphones or at home at their own pace to share with friends and family.

Sharing Your Story

Visitors will be encouraged to commemorate their own parent's arrival by adding their own stories online at <https://caribbeantakeawaytakeover.wordpress.com/2018/05/22/beautiful-stories/> Or why not take a selfie at the installation to record your visit and share it with us on our Instagram @evewrightarts, @evewrightstudio

Resources

As a legacy of the project the public can now access the 30-minute edited audio recordings at Essex Records Office (ERO) in Chelmsford or online on ERO's website. The links are below <http://www.essexarchivesonline.co.uk/>
